

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Water to be diverted by means of a well and delivered by water trucks and pipes.
- State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

9. Estimated cost of works..... \$25,000
10. Estimated time required to construct works..... Two to three months
11. Estimated time required to complete the application to beneficial use..... One Year
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

Annual consumptive use approximately 12,000,000 gallons. Domestic use - drinking and sanitary facilities for 6 employees. Landscaping - irrigation of trees and shrubs along approximately 1/4 mile of frontage road. Dust control - for the production, stockpiling and mining of approximately 400,000 tons of aggregate products per year and for the control of dust on approximately 3 miles of haul roads.

APPROVAL..... OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed..... 1.0..... cubic feet per second, but not to exceed 12.0 million gallons annually.

Actual construction work shall begin on or before..... N/A

Proof of commencement of work shall be filed before..... N/A

Work must be prosecuted with reasonable diligence and be completed on or before..... September 18, 1982

Proof of completion of work shall be filed before..... October 18, 1982

Application of water to beneficial use shall be made on or before..... September 18, 1983

Proof of the application of water to beneficial use shall be filed on or before..... October 18, 1983

Map in support of proof of beneficial use shall be filed on or before.....

Commencement of work filed..... IN TESTIMONY WHEREOF, I..... PETER G. MORROS
Completion of work filed..... State Engineer of Nevada, have hereunto set my hand and the seal of
